Dear Smith,

My name is Mason Milo Magdaleno, and I am grateful for the opportunity to introduce myself as I begin preparing for my future after high school. I am currently exploring opportunities in education and career paths, and I am especially interested in roles that allow me to grow, learn, and contribute to my community.

I am a motivated high school student who is known for being teachable and willing to improve. I work well with others and have strong communication skills, which helps me collaborate effectively with peers and teachers. I am also a quick learner who adapts easily to new challenges. In addition, I have developed technical skills in HTML, CSS, and some JavaScript, along with experience using Git, GitHub, terminal commands, and Photoshop. I type at a speed of around 80–90 words per minute, allowing me to work efficiently.

During my time in high school, I have been an active member of CTCL for three years. I was also recognized as Student of the Month during my sophomore year, which reflects my effort to stay involved and improve academically. Through school and personal interests, I have built a strong foundation in technology and problem-solving. I am eager to gain more real-world experience through future work or volunteer opportunities.

My long-term goal is to become a highway patrol officer. I am also interested in welding and firefighting as alternative career paths. After graduating, I plan to continue my education at a college such as Fresno State, Lemoore College, or Coalinga College. I am focused on building a stable and meaningful career where I can make a positive impact.

After reviewing my background, I hope you will see that I am a dedicated and hardworking individual who is ready to grow and take on new challenges. I would appreciate the opportunity to further discuss how my skills and mindset can benefit your organization or program. Please feel free to contact me at 559-383-5738 or by email at Mmagd-S090@chusd.org.

Thank you for your time and consideration. I look forward to hearing from you.

Respectfully,

Mason Milo Magdaleno
