

McDonalds

McDonalds is one of the better restaurants as they have good customer service. When I go to McDonalds they always have a smile on their face. They are willing to change your order if they get it wrong. If you don't like the way something tastes they will give you something else. McDonald's employees will take your food if the drive through is taking too long. Some may say that McDonalds does not have great customer service.

McDonalds has a variety of different foods to choose from. Some breakfast items you can get all day long. The items vary from lower prices to higher prices. They even have a dollar menu to choose from if you are low on cash. I like that I can order sweets and food items at one place. Some may argue that McDonald's prices have gone up significantly.

McDonalds has great managers to control how the restaurant is run. If there is a problem with a staff member you can easily talk to a manager. Even if the staff cannot get you a refund the managers typically can override it. When the restrooms are dirty the manager can be advised and they will have someone clean it up promptly. Some may say that the managers do as little as possible for the pay they receive.
